Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant's representative was arguing that the prior art do not read on the claim limitations "a cropping means...", "a compression means...", and "a switching means..." The examiner made it clear that the prior cited in the office action was valid for the rejection by indicating the features of prior art, reading on the claim limitations and explaining the term "zoom function" includes the cropping and compression features. The applicant's representative told the examiner that they will response back after discussing with his clients..
